

Bury Lodge Nursing Home

A commitment to care

A caring environment

Bury Lodge is in a residential area of Gosport close to shops, public transport and local amenities, along with the sea and local beauty spots. Part of Bury Lodge is a Grade II listed building which has been tastefully modernised whilst retaining some of the period features. The Home is complemented by a secluded garden offering residents a safe and tranquil setting.

We offer a range of accommodation options including bedrooms with en-suite facilities, single and shared rooms. We have assisted bathrooms and a shower room. Each room has a nurse call point. The Home has a passenger lift.

Residents are welcome to bring in personal effects from their current home as long as they comply with Health & Safety regulations.

Attention to detail

Bury Lodge is a nursing home for older people with dementia.

The company have a training department which arranges internal and external training to ensure that staff are trained and competent to do their jobs.

We have a holistic approach to caring for residents which includes all aspects of nursing and social care.

Registered nurses assess, monitor and review the care and social needs of each resident and each resident has a comprehensive care plan.

A choice of lifestyle

We provide our residents with a variety of choices in their lifestyle. Our in-house kitchen provides a daily selection of wholesome meals prepared from fresh ingredients. We ensure that special dietary needs are met and there is always a selection of home-made cakes, biscuits and fresh fruits.

Television and video are available in both lounges. Activities are arranged and provided by specialists and the staff. The secluded garden offers quiet relaxation.

Relatives and friends are welcome to visit at any time and can participate in our various activities and parties. Hairdressing, dental, GP, optician, physiotherapy and chiropody service providers visit the Home regularly.

Arrangements are made to ensure residents are able to worship in their own faith. Laundry services are provided in house.

Our aim is to provide a positive and comfortable lifestyle for our residents by enabling and encouraging them to make the most of their individual capabilities within a residential setting.

Staff who care

Our specially trained staff help all residents feel secure and comfortable so that they can look forward to the future with optimism.

In our home, they will be enabled and encouraged to retain their dignity, independence and individuality.

Our objectives

To ensure staff are responsive to the individual needs of the residents and provide care to facilitate the highest possible quality of life within the home.

To develop a care plan for each resident compiled with key areas of choice, rights, fulfilment, independence, privacy, dignity and security in mind.

To ensure our staff are adequately trained, supported and managed.

To have an expectation of each member of staff to conduct themselves in a professional and mature manner and produce care of a high quality.

To provide a caring and supportive environment where the resident feels valued, secure and happy.

To foster an environment of openness and respect, in which residents, family, friends and staff feel valued, and where each person's view counts.

To enable staff to gain a sense of achievement and self-fulfilment from their experience with us.

From home to home

Bury Lodge embraces a philosophy of care which aims to provide a secure, relaxed and homely environment in which the care of the resident is of prime importance.

We aim to provide care to a standard of excellence which embraces the fundamental principles of good practice. If at all possible, a trial visit will be arranged prior to admission to the Home, so that the resident and family can make an informed choice about their next place of abode.

To arrange a visit, or to discuss the Home further, please contact:
